

QUALITY MATERIALS. COMPETITIVE PRICING. FAST DELIVERY.

Ug Plast's multi-wall polycarbonate sheets are made of strong yet lightweight thermoplastic synthetic resin that provides a durable, translucent solution for applications where impact resistance and light transmission are key. These features plus its distinctive interior structure and light-transmitting properties make multi-wall polycarbonate perfect for unique architectural designs and glazing applications, as well as conventional construction uses. Ug Plast's multi-wall polycarbonate sheets come with UV protection and a 10 year warranty.

Multi-Wall Polycarbonate Benefits

- Highly impact resistant
- Energy efficient
- High light transmission
- Lightweight
- Easy to install
- Recyclable
- Buyback Program

MADE
IN USA

Multi-Wall Polycarbonate

Features

- 12 standard colors in stock
- 5 structure options
- UV protection
- Cut to size
- 10 year warranty
- Available to ship in 3 to 4 days

Benefits

- Highly impact resistant
- Energy efficient
- High light transmission
- Lightweight
- Easy to install
- Recyclable
- Buyback Program

Applications

- Architecture
- Construction
- Roofing
- Glazing
- Greenhouses
- Skylights
